Volumetric Contrast-enhanced Echocardiography

with Sparse Arrays

1. Elk nadeel heb se voordeel (Every disadvantage has its advantage).
– *This Thesis*
2. High image quality comes at a cost of time.
– *This Thesis*
3. Direct channel to element connection enables flexibility in image sequence design.
– *This Thesis*
4. Having fewer elements simplifies the hardware but complicates the software.
– *This Thesis*
5. Improvements can be achieved when more dimensions are added.
– *This Thesis*
6. 万事开头难 (the ‘start’ is the most difficult part of any process).
7. Since even science is not 100% objective, we cannot expect anything else to be.
8. The most formidable superpower is the power of hindsight.
9. The quality of presentation is a key part to any success.
10. *In vivo* is not the same as *in vivo*.
11. “His whole body shakes with the strain as he tries to lift something he knows he can’t lift, something everybody knows he can’t lift. But, for just a second, when we hear the cement grind at our feet, we think, by golly, he might do it”.
– *One Flew Over the Cuckoo’s Nest*
