### Terms and Conditions of Use

Except as permitted by the applicable copyright law, you may not reproduce or make this material available to any third party without the prior written permission from the copyright holder(s). Copyright law allows the following uses of this material without prior permission:

- you may download, save and print a copy of this material for your personal use only;
- you may share the EUR portal link to this material.

In case the material is published with an open access license (e.g. a Creative Commons (CC) license), other uses may be allowed. Please check the terms and conditions of the specific license.

### Take-down policy

If you believe that this material infringes your copyright and/or any other intellectual property rights, you may request its removal by contacting us at the following email address: [openaccess.library@eur.nl](mailto:openaccess.library@eur.nl). Please provide us with all the relevant information, including the reasons why you believe any of your rights have been infringed. In case of a legitimate complaint, we will make the material inaccessible and/or remove it from the website.

# Multiple Cutaneous (pre)-Malignancies

Robert J.T. van der Leest

1. Het einde van huidkanker follow-up is zoek.  
*(dit proefschrift)*
2. Informatievoorziening aan huidkankerpatiënten in Nederland moet verbeterd worden.  
*(dit proefschrift)*
3. Het voorkomen van multipele keratinocyt carcinomen vormt een groter probleem voor patiënten en de gezondheidszorg dan ziekteprogressie of recidieven.  
*(dit proefschrift)*
4. Epidemiologische studies naar multipele huidkankers lopen voor op de basale wetenschap.  
*(dit proefschrift)*
5. Het is niet mogelijk om de bijdrage van endogene, exogene en surveillance effecten van elkaar te onderscheiden in het veld van multipele huidkankers.  
*(dit proefschrift)*
6. The frequency with which screenings will allow clinicians to detect a subsequent basal cell carcinoma of the head and neck or hands sooner (or later, due to waiting for the annual appointment) than it would otherwise be detected by an educated patient with a prior basal cell carcinoma is uncertain.  
*(Wu and Stern, JAMA Dermatology, 2015)*
7. The development of (multiple) skin cancers is a matter of 'bad luck', rather than other risk factors, due to the high rate of stem cell divisions.  
*(Tomasetti and Vogelstein, Science, 2015)*
8. Time is the best censor, and patience a most excellent teacher.  
*(Fryderyk Franciszek Chopin, 1810-1849)*
9. Get a tan, have a smoke, stay up 'til the wee hours, burn the candle at both ends – and your skin is going to show it.  
*(Dr. Fredric Brandt, 1949-2015, Blog, 2013)*
10. Indolent lesion of epithelial origin (IDLE) or (pre)-cancer: what's in a name?  
*(Esserman et al., The Lancet Oncology, 2014)*
11. Het is een dermate logische kwestie.  
*(Ricky van Lith, Pianolerares, 2011)*  
Eenzaamheid is de voorwaarde voor ware productiviteit. Je moet ervan leren te genieten, net als van gember.  
*(Arnon Grunberg, Huid en Haar; III Diversificatie, 2010)*
