# Curriculum vitae

## CURRICULUM VITAE

Fatemeh Kokabisaghi holds a bachelor and master degree in Health Services Management from Tehran University of Medical Sciences, Iran. Prior to her doctorate research, for some years, she has worked on the National Health Sector Reform Project of the Ministry of Health and Medical Education of Iran. In Recent years, she has focused on the legal aspects of the right to health. Her PhD research at the Erasmus School of Health Policy and Management of Erasmus University Rotterdam focuses on the domestic implementation of international laws related to the right to health. Since 2016, she has been a lecturer at the Health Faculty of Mashhad University of Health Sciences of Iran too. Alongside her PhD research, Fatemeh has taught various courses on health policies and laws. In addition, she has followed various courses on human rights and given presentations and workshops about her PhD research in national and international events. She has published several articles about health sector reform, right to health, rights of vulnerable groups including children and women, and development policies. Moreover, she is an Associate Editor and Reviewer for several academic journals. One of her publications entitled “Right to Sexual and Reproductive Health in New Population Policies of Iran” published in the Journal of Public Health Policy in 2017 has been shortlisted for the PhD Excellence Award by the Graduate School of Erasmus University Rotterdam.

In 2018, her article entitled “the Role of Male Guardians in Women’s Access to Health Services” that was published in the International Journal of Law, Policy and the Family won the Award for the best article.
