

## **Stellingen – Steef Redeker**

Dit proefschrift:

1. *Nierteam aan Huis* is a cost-effective way to improve access to living donor kidney transplantation
2. It is feasible to implement *Nierteam aan Huis* in standard care
3. The transplantation rate will benefit from a reduction in the number of dialysis beds.
4. Medical decisions by physicians are affected by financial incentives.
5. There is a need for organizational and policy-related factors to improve kidney care.

## **Stellingen buiten het proefschrift om**

6. Failing repeatedly and catastrophically is not a sufficient condition for policy change
7. The priority of every organization is to secure its own existence
8. Door de NAVO-norm van 2% structureel te negeren, heeft Europa de deur opengezet voor Rusland
9. Investeren in sociale cohesie zal op lange termijn leiden tot kostenbesparingen in de zorg.
10. The war on drugs is over; the good guys lost (vrij naar: Leonard Cohen, 1988, *Everybody Knows*).

## **Vrije stelling**

11. Hét nadeel van een lekkage in je huis, is dat al je spullen nat worden (vrij naar: Hans Teeuwen, 1999, Trui).
